

| Service | Initialization Time | Horizontal Accuracy |
|------------------|---|---------------------|
| VRS Now™ | Instant | <2 cm |
| CentrePoint® RTX | < 1 min < 15 min (in select regions) | <2 cm |
| FieldPoint RTX™ | < 1 min < 15 min (in select regions) | 10 cm |
| RangePoint® RTX | < 5 | 30 cm |
| ViewPoint RTX™ | < 5 | < 50 cm |

RMS performance based on repeatable in field measurements. Achievable accuracy and initialization time may vary based on type and capability of receiver, user's geographic location, GNSS constellation health and availability, and level of multipath including obstructions such as large trees and buildings.
